
LIST OF TABLES

Tables

Table 1.1. Electricity Generation by Major Fuel Type, WECC	9
Table 1.2. New Natural Gas Power Plants in the Pacific Northwest Region	14
Table 2.1: PGC Natural Potential Resource Estimates 2000 and 2002.	19
Table 4.1: LNG component costs in 1995 and 2002	41
Table 4.2: Price at which LNG becomes economically viable.....	42
Table 4.3: Current U.S. LNG facilities.....	43
Table 5.1: CEC Natural gas demand growth forecasts for 2003-13	54
Table 6.1: NPCC forecast of U.S. wellhead natural gas prices (2000 \$/MMBtu)	68
Table 6.2: Summary of price forecasts (\$/MMBtu)	68
Table 7.1: Origin of Gas Serving the Northwest	73
Table 7.2: Pipeline Utilization Rates	75
Table 7.3: Contracted Capacity at Major Receipt Points	80
Table 7.4: Top Ten Shippers on Northwest (Contracted)	81
Table 7.5 Capacity at Major Receipt Points on GTN Pipeline	84
Table 7.6 Top Ten Major Shippers, Contracted Delivery (Maximum Daily Quantity), and Primary Delivery Points	84
Table 7.7 Capacity at Major Receipt Points – DEGT Pipeline	89
Table 7.8 Top Ten Major Shippers, Contracted Delivery (Maximum Daily Quantity), and Primary Delivery Points – DEGT T-South	90
Table 7.6 Top Ten Major Shippers, Contracted Delivery (Maximum Daily Quantity), and Primary Delivery Points – DEGT T-South	90
Table 7.10 Natural Gas Storage Facilities Available to the Pacific Northwest.....	93
